Commission Decision 01-09-016.

Summary: On July 19, 2004, Eric Eisenman, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Brian Prusnek, advisor to Cmmr. Kennedy, in San Francisco. Also present was Ben Campbell, Manager, Product Management, PG&E. Written material (attached to the notice) was used. Eisenman explained how the Gas Accord changed the ratemaking treatment of Line 401, and that this facility became an indistinguishable part of the Redwood path. Campbell stated that PG&E does not receive a reasonable opportunity to recover its cost of service until the forecast throughput on all backbone facilities, not just Line 401, reaches 95%. Campbell added that PG&E has no incentive to expand its gas transmission facilities as long as the 95% load factor adjustment is applied in determining rates. Eisenman urged the Commission to grant PG&E's petition for modification of D03-12-061.
